Skills

- **Programming Language :** JavaScript (ES6+), Java, C#, Python, C, SQL.
- **Web Development :** Node.js, Express.js, React, EJS, HTML5, CSS3, Bootstrap.
- **Databases :** MongoDB (NoSQL), MySQL (Relational).
- **Tools & Version Control:** Git, GitHub, Render, Cloudinary.
- **Other Interests:** MERN Stack, RESTful APIs, MVC Architecture

Education

- Fergusson College (Autonomous), SPPU | M.Sc (Computer Science) | 2025-2026(Ongoing) | CGPA : 7.9
- Fergusson College (Autonomous), SPPU | B.Sc (Computer Science) | 2022-2025 | CGPA : 6.0

Projects

Wanderlust | Full-Stack Travel Marketplace | [Live-Project]

- Developed a full stack logistics website using the MERN stack consisting of MongoDB, Express.js, React, and Node.js.
- Implemented interactive UI features using React Hooks and vanilla JavaScript including sticky headers, project carousels, and modular service cards.
- Engineered a RESTful backend and document oriented database schema to manage dynamic content and routing efficiently.
- Optimized site performance through image lazy loading and mobile first media queries to ensure responsiveness and accessibility.

Weather App

- Developed a real-time weather application using React and the WeatherAPI to provide live meteorological data.
- Implemented a city search feature allowing users to query and display localized weather updates instantly.
- Designed a responsive UI using Material UI components to ensure a professional and consistent design system.
- Managed asynchronous API requests and application state using React Hooks for seamless data rendering.

Languages

- **English :** Professional Working Proficiency
- **Hindi:** Professional Working Proficiency
- **Marathi:** Native Proficiency
